

Financial and Commercial.

MONETARY.

The city is concerned, there is not a particle of official news of war. The banks have accumulated in the banks, and very little, if any, movement can be expected for several weeks to come. Outside the banks money is slow and collections difficult. It is agreed, however, on all sides that there is a great and important interest in the affairs of the West. If there is not much money about, borrowers are comparatively few and their wants are not so urgent. Thousands have reduced their purchases to the necessities of life, and are diligent in their work, which they may, and applying it to the production of grain and getting it to the payment of their debts. A year or two will pass them upon their feet, the country will breathe more freely, and we shall be prepared to enter upon another era of peaceful and progressive development.

Questions arise in all respects as to our last issue. Exchange 4 per cent., premium, and gold \$22 for currency.

EXCHANGE ON THE GULF AND CHICAGO UNION.
